Students

ELIGIBILITY FOR EXTRA-CURRICULAR ACTIVITIES REGULATION

Eligibility Standards

1. Academic Eligibility Determination

- a. A student must maintain a 70 average and attain passing in at least 4 courses each marking period.
- b. Determination for fall participation rests upon the previous year's quarter four performance.
- c. A student, who does not meet eligibility requirements per marking period, has until the next 5 week interim report period conclusion to meet the requirements. He/she is placed on academic probation.
- d. During the academic probation period the student may fully participate on the team.
- e. During the academic probation period the student will attend and participate in a minimum of three after school study sessions. In addition, other school assigned interventions may be required if deemed necessary for student success.
- f. If the students does not participate in the after-school program or show improvement at the 5 week interim report time, he/she will become "Ineligible to Compete." (see 2a)

2. Ineligible to Compete Status

- a. If a student does not produce the required form indicating passing the subjects in question at the 5 week interim report period, he/she will be ineligible to participate in any extra-curricular activity for the next five weeks. It is expected that the student will attend the after-school study session outlined in 1b. If the student's situation improves within the five week period and prior to the close of the next marking period, the student may request reconsideration of his/her ineligibility status.
- b. To request reconsideration, a student must complete the same status form, signed by each teacher, and present it to the Principal. The Principal will then clear the student for practice and play, and notify the coach.
