### Catskill Central School District Code of Conduct Summary

The Catskill Central School District is committed to maintaining high standards of education for students in the schools. Because the District believes that order and discipline are essential to being educated effectively, the District is also committed to creating and maintaining high behavioral standards and expectations. An orderly educational environment requires that everyone in the school community play a role in contributing to an effective environment. It also requires the development and implementation of a code of discipline that clearly defines individual responsibilities, describes unacceptable behavior, and provides for appropriate disciplinary options and responses.

**Essential Partners**: The District believes that order and discipline must be a shared responsibility between "Essential Partners" those individuals who contribute directly to a student's success. The partners include parents, teachers, guidance counselors, other school personnel, principals, the superintendent, and the Board of Education.

**Dress Code**: Students are expected to dress and groom themselves in an appropriate manner. Student must be dressed in appropriate clothing and protective equipment as required for physical education classes, participation in athletics, science laboratories and home and careers skills classes. Any dress or appearance which constitutes a disruption to the educational process is not acceptable.

**Prohibited Student Conduct:** The Code of Conduct outlines in detail areas of prohibited student conduct. These include disorderly conduct, insubordination; disruptive behavior, violent conduct, or any other behavior with endangers the safety, morals, health or welfare of others. This includes student behavior on a school bus as well as academic misconduct, (e.g. plagiarism, cheating). The code also provides detail information to incidents involving weapons, students who commit violent acts and students who are repeatedly and substantially disruptive to the educational process.

**Penalties:** When penalties are imposed, administrators must take into account various issues, which include the age of the student, the circumstances surrounding the offense, prior disciplinary record, information received from other sources, as well as any extenuating circumstances. Penalties include verbal warnings, counseling/mediation, detention, class removal, suspension from activities or privileges, in school suspension, out of school suspension, referrals to family court or other agencies may also be part of the disciplinary action.

**Student Searches and Interrogations.** Students may be questioned by school officials regarding alleged violations of law or the Code of Conduct. Furthermore, searches of students and their belongings according to specific guidelines are also authorized where there is reasonable suspicion that the student violated the law or the code of conduct, or where safety may be threatened. Students have no reasonable expectation of privacy with respect to computer files, student lockers, desks, and other school storage places and student vehicles while on school property. These may be searched at any time without prior notice or consent. The Board of Education has also authorized the intermittent use of a drug-sniffing dog.

**Public Conduct on School Property:** All persons on school property or at school functions are expected to conduct themselves in a respectful and orderly manner. Specifically prohibited conduct includes intentional injury or threat; damaging school property; disruptive conduct; wearing materials or objects that are obscene, libelous, advocate illegal action or obstruct the rights of others; smoking or use of tobacco products on school property; possession, consumption, sale or distribution of alcoholic beverages or controlled substances or being under the influence of either; possession of weapons; loitering, or refusing to comply with any reasonable request of recognizable school officials while performing their duties.
